I can not see the attachment. However, if it has a contractor logo, we need to remove contractor logos.

This is pretty unapproachable in its current form. It needs a lot of work to make it understandable. Let me touch base with Jeff and OM to see what we can do.

Danny,

Here is a very drafty diagram of the mine to help explain what happened at the mine.

The SME hasn't provided feedback yet on accuracy. Once he sends that, do you think your team could improve this to use on the site and share with media?
